His House Children's Home

HIS HOUSE CHILDREN'S HOME

His House Children's Home was established in 1989 to care for abused, neglected, and drug exposed children in South Florida. Our goal is to restore the physical and emotional well-being of children through an array of services, by providing a loving, stable, and nurturing environment. The agency provides residential care in a campus setting as well as foster care with families licensed by the State of Florida through His House Children's Home.

His House Children's Home operates seven shelter facilities called "cottages" because of their homelike setting. His House Children's Home provides education to the children at His House Academy, located also on campus. His House Children's Home provides full case management to nearly 280 children ranging from children in foster care, living in shelter, and living at home with their families. His House Children's Home opened a Counseling Center to provide on-campus therapy for the children. His House Children's Home helps many of the children find a forever family through the process of adoption.

His House Children's Home recruits foster families, provides training, and processes the licensing package for State approval. Among the services provided to the children, His House Children's Home represents the children throughout the legal system of child welfare.
